A Mini Project Report on

EVENT MANAGEMENT SYSTEM

*Submitted in partial fulfillment for the Web Technology Laboratory course of
Seventh Semester of Bachelor of Engineering in Computer Science & Engineering
during the academic year 2018-19.*

CERTIFICATE

Certified that the minor project work entitled “Event Management System” is a bonafide work carried out by [Abhishek H M] (4mh15cs001) & [Ravichandra N] (4mh14cs077) for the Web Technology Laboratory with course code 15CSL77 of Seventh Semester in Computer Science & Engineering under Visvesvaraya Technological University, Belgavi during academic year 2018-19.

It is certified that all corrections/suggestions indicated for Internal Assignment have been incorporated in the report. The report has been approved as it satisfies the course requirements.

Signature of Lab Staff In-Charge

Prof. Bhavyashree H D

Assistant Professor
Dept. of CS&E
MIT Mysore

Signature of the HOD

Dr. Deepu R

Associate Professor & HOD

ACKNOWLEDGEMENT

It is the time to acknowledge all those who have extended their guidance, inspiration and their whole hearted co-operation all along our project work.

We are also grateful to **Dr. B G Naresh Kumar**, principal, MIT Mysore and also **Dr. Deepu R**, HOD, CS&E, MIT Mysore for having provided us academic environment which nurtured our practical skills contributing to the success of our project.

We wish to place a deep sense of gratitude to all Teaching and Non-Teaching staffs of Computer Science and Engineering Department for whole-hearted guidance and constant support without which Endeavour would not have been possible.

Our gratitude will not be complete without thanking our parents and also our friends, who have been a constant source of support and aspirations

ABHISHEK H M

ABSTRACT

Event management system is used to manage all the activity related to event. In any event many service providers work simultaneously and it is very hard to manage these providers. It is also important for event organizer that he has all the contacts details of these service providers so that he can contact them any time to plan an event at given time. To manage all these activity we have developed this software. To get success in the event management business, user should have strong network contacts of service provider. These contacts are essentially providers of specific services who can be mobilized quickly to participate in any given event. To make an event successful event manager needs different service provider like Sound systems services, Lighting providers, Canteen services, stage construction and so on. In any event many service providers work simultaneously and it is very hard to manage these providers. It is also important for event organizer that he has all the contacts details of these service providers so that he can contact them any time to plan an event at given time. . In present system Event Company has to do all management work manually. They keep all payment information on papers. There is no system to check the past expenses on any event. To do this they have to check payment register and this task is very time consuming and tiresome
